

The Workingmen's Party.

In another portion of this issue the reader will find certain expressions of opinion upon the proposed Workingmen's Party, which is to be organized in this State. The arguments made against the proposition are, we believe, three in number. First—That such a party will be used by unscrupulous men for their own advancement. We have somewhere read the statement that the old political parties had been used in the same way, and, although never doubting the public spirit and unselfishness of the perpetual politician and office-holder, we are inclined to think there may be some truth in the charge. Besides this, the cardinal doctrine of the workingmen is, that the old parties have been corrupt, and, owing to the influence of designing men, have lost the power of purifying themselves. This first argument is not, then, remarkable for strength.

In the second place, we are told that the workingman in Nevada has no grievances to redress. It is barely possible that he knows more about that than we. And it is fair to presume that honest workmen are not demagogues in saying they have grievances to redress, any more than politicians are selfish in asserting the contrary. This second question must then go to the workingmen for an answer.

The third, and most damaging statement advanced, is in the nature of a comparison of brain power. A writer in the Carson Appeal "sends forth a note of warning" to the "sons of toil," lest they make a serious mistake. Says he:

Men must devote years of their lives in preliminary studies in order to successfully engage in these pursuits.

The reader should bear in mind that this argument is advanced to prevent the workingman from being active in our State election. It requires no great amount of research to determine that the men who name Nevada's officers are, as a rule, illiterate and unprincipled. We will pit any honest laborer in this State against the average politician, upon the joint test of honesty and good judgment, and it is well known that the choicest scoundrels in this State are among the most successful politicians. The same writer peevishly complains that:

All those whose hands are soft and whose brains are starchy, but whose brains are capacious, and whose minds are enlarged by experience and study must have no voice in these labor clubs.

Without stopping to ask who did the wire pulling for this gentleman, we ask in the name of workingmen, curiosity seekers, and lovers of this commonwealth, where are those Nevada politicians with "capacious brains and enlarged minds?" Where do they reside? and what particular problem now engages their massive intellects?

Now, we do not undertake to say that a labor party is necessary, nor will it arise if the ruling parties consult the people; but these are hard times, and strikes in politics are just commenced. If the two great parties do not play their cards well, they will invite certain defeat. They will also deserve it.

Concerning the late scandal in Austin over the conduct of J. A. Gray, a minister at that point, the Carson Appeal and Reese River Reveille have come to blows. Parson Kelly, who claims to edit the only religious journal known to Nevadans, said "things must be rather crooked when Fred Hart takes hold," whereupon Freddy calls him a smutty little political parson, and declares that Samuel has importuned him to lend his support for his (Kelly's) re-election. Kelly will probably say in reply "you darn't take it up," when the immortal Sazeracer will write one of his humorous squibs against his enemy, and a conference of Nevada journalists must then be convened to settle upon terms.

The Commercial Herald thinks that, if Dr. Wozencraft succeeds in reclaiming the Colorado desert, which is only a question of money and perseverance, he will have a principality more valuable than any Grand Duke in Europe possesses. We have proven here in Nevada that the man who reckons sagebrush land has the most profitable farming land in the country.

The Press on the Workingmen.

The Carson Appeal opposes the Workingmen on the ground that they have not at present the ability to comprehend politics, and by inference says that the officers generally elected have such ability.

The Sacramento Bee says: There is no longer any Democratic or Republican party in California! The new organization of labor, just uprisen, has buried them both in a day and as it were, and there is no hope of a resurrection until the next Presidential election, or perhaps much later; and then only on the condition that they shall progress with the times and do the will of the people.

There are but three direct points aimed at in the Workingmen's movement. They are: The removal of Mongolian competition—in other words, "the Chinese must go;" the legal subordination of corporate and other monopolies to the public good and the laws of the State and nation; and, finally, the extirpation of corruption and the punishment of corrupt officials. It seems to us that these are all desirable results, and in any way they are communistic in character, as runs the popular acceptance of the term, then all honest political parties and politicians should and must be of the same stripe.—S. F. Post.

The Virginia Chronicle thinks there is no necessity for the new party because the labor question in Nevada is controlled by that perfect and powerful organization—the Miner's Union. This effective lever, by which the rate of wages is kept up, does not, as an organized unit, extend to the realm of politics. Its efficiency is thereby believed to be all the more potent and assured. Yet should a candidate inimical to the laboring classes be put forward by any party, it is safe to say that this society would lay him away to mould in the quietude of private life.

The especial need for the formation of such a party—or faction, for it would be nothing else—is not clearly apparent; but it is plain that the efforts in that direction are principally by professional politicians, who are striving to take the lead, that they may be elevated to power and office by a popular uprising which they hope to bring about.

The laboring men of Nevada really have no grievances to redress. They are paid liberal wages for their work, and at present have full swing and say in politics.—R. R. Reveille.

The movement organized here by Mr. Apponyi is progressing rapidly, and in the most prosperous manner. The people here are in full accord with the idea of a new party, and the old political hacks are kicking. Now that a complete organization has been effected, the list roll of members is rapidly swelling; and in a short time, it promises to be a power in our political field.—Virginia Footlight.

Representative Wren has introduced a bill to authorize the cutting of timber on mineral lands for mining and domestic purposes. The provisions of this bill will provide for timber problems relating to this western slope, heretofore untouched, and whose complexity was calculated to work much injury and pecuniary loss to the timber interests. The prosecutions lately inaugurated against the mill men of Nevada county, California, and which can injure and bankrupt private citizens, were a legitimate result of these complexities. Mr. Wren in his argument for the proposed bill, not only shows its virtues, but proves conclusively that the laws out of which present troubles have grown were faulty and susceptible of abuse in a variety of ways. He proposes to correct the evils and in the correction will no doubt show why there should not be a strict interpretation of the old law.

The Austin Reveille calls attention to the fact that Austin is the centre of a large extent of cattle range in Lander, Nye and Churchill counties, and thinks that in the event of railroad connection with Battle Mountain, Austin may become a depot for the shipment of dressed meats. The possibilities ahead of that meat shipping Association are not half understood yet.

The Evening Bulletin has a high opinion of the present California Legislature, and takes occasion to say that they have never been equaled for ingenious grabs and unscrupulous give-aways. That's one thing Nevada can boast of—her Legislators.

## LOCAL AFFAIRS.

## The New Dollar.

Carson Coinage—\$500,000 per month—its Mission.

Our reporter on a visit to Carson and Virginia Sunday last, improved his opportunities for an inquiry in regard to the new dollar, and the prospect for its immediate circulation, as that is an acknowledged subject of interest with everybody who has use for dollars.

The dies for the new coin have not yet arrived at Carson, but are expected by Superintendent Crawford about March 27th, and in time to commence the coinage before April 1st. Every minor preparation having been made. Once commenced the work of coinage will be vigorously prosecuted and the mint facilities of Carson will turn out the new shiners at the rate of between \$500,000 and \$600,000 per month. Official orders in regard to the new dollars, has not yet been received, but will no doubt direct the first shipment to the Treasury department at Washington. When the work has been fairly commenced the three mints will turn out \$3,500,000 per month in daddy's dollars, and Mr. Crawford believes that at this rate the bullion production of the country will be handled without trouble. The present facilities will be kept running under high pressure for some time and should the rate of production prove inadequate, a light outlay of money will largely increase the coinage facilities.

The business men of Nevada are all awaiting the first appearance with much anxiety.

**FREE LECTURE TO-NIGHT.**—Dr. J. Simms, an eminent physiognomist, will deliver a free lecture on the human face and how to read it at the Academy of Music in Reno to-night at 8 o'clock. The course will continue each evening this week. Dr. Simms is the author of a large work on physiognomy, which has been well received at home and in Europe. His apparatus with which he illustrates the subjects of his lectures consists of a very large collection of portraits in colors, representing those who have figured in the world's history. His lectures are highly spoken of by the Press as being both entertaining and instructive.

**PROBLEM IN PHYSIOGNOMY.**—Considering the fact that Eureka children are mostly born with their noses turned up at an angle of 45 degrees, and after reading the "fume" discussion in another column, and how Eureka is made famous by its smells, we want to know whether this shows a transmission of smelling capacity in improved form? Does the nose "evolute" to satisfy the demands made upon it? The "local" is anxious to have this question settled, for if answered the editor of this journal must have first seen the light in the neighborhood of a limburger factory.

**SCHOOL MEETING.**—Voters in District No. 10 who reside on the South Side of the river are requested to meet this evening at the Court-house for a discussion of school matters. The Trustees are also respectfully invited to attend. We hope that this school matter may be agreed upon so that all portions of the district may obtain consideration. The necessity for more accommodations is confessed, and now the manner of supplying them should be fully understood. This subject interests every citizen, and they should speak out.

**MINING SUIT.**—A number of the big lawyers of the Coast are in Carson today arguing pro and con, an injunction asked for by the Richmond Mining Co. restraining the Eureka Mining Co. from working the "Pot's chamber" until the appeal and case of the Richmond vs. the Eureka shall have been heard before the Supreme Court of the United States.

**IN THE EAST.**—Rev. W. C. Gray, pastor of the Methodist Church at this place, was in Eureka on Thursday last, and will visit Austin during the present week.

**FOR SALE.**—E. Olinhouse has a fine lot of beef cattle feeding at Mr. Frazier's ranch on the Meadows. Butchers wanting beef can buy by addressing him at Wadsworth. 3-18-2v.

## V. &amp; T. R. R.

Time Table—Charges—Etc.

In Saturday's issue we gave full information of the arrivals and departures of the C. P. trains, also the passenger and freight charges on the same. In the following article will be found similar information as to the trains of the V. & T. R. R.

Passenger train No. 1 leaves here at 7:35 A. M. and arrives in Virginia City at 10:40 A. M.

Passenger No. 2 leaves Virginia City at 6 P. M. and arrives here at 8:55 P. M.

No. 5 freight and passenger leaves here at 7 A. M. and arrives at Virginia City at 1:45 P. M.

No. 4 freight and passenger connects at Carson with freight train No. 10, which leaves Virginia City at 5:35 A. M., arriving in Carson at 7:40 A. M. No. 4 leaves Carson at 8:10 A. M. and arrives in Reno at 11 A. M.

No. 6 freight and passenger leaves Virginia City at 8:15 A. M.; arrives at Carson 9:50 A. M.; leaves Carson at 12 M. and arrives here at 4:05 P. M.

No. 7 freight and passenger leaves here at 12:45 P. M.; arrives in Carson 4 P. M.; leaves Carson 5 P. M. and arrives in Virginia City at 6:32 P. M.

Freight trains No. 11 and 17 are wood trains which leave Huffakers' or intermediate stations between Huffakers' and Carson.

No. 25, freight and passenger, leaves here at 5:30 P. M. and arrives in Carson at 8:40 P. M.

No. 26, freight and passenger, leaves Carson at 5:50 P. M. and arrives here at 8:30 P. M.

Passenger charges are the same in all these trains. Fare to Virginia City \$3, to Carson \$2.50.

Freight rates for general merchandise 40 cents per hundred to Virginia City, and 30 cents to Carson. Live stock by the car \$30. Lumber by the car-load to Virginia City \$60; to Carson \$30. Machinery and other heavy freight \$75 per car-load to Virginia City; \$60 to Carson. Other freight goes by special rates, as indeed does most of the freight over the V. & T. railroad. This road being a short line road freights are not classified as on the C. P. R. R. It will be observed that the even numbered trains leave Virginia City and come south. The odd numbered go north. The same is true on the C. P., as the even numbered trains go west, and the odd east. For the above information we are indebted to Charles Stoddard.

**WORKINGMEN, ATTENTION.**—Mr. C. E. Apponyi, who has lately organized a workingman faction in Virginia City, will be in Reno on Thursday evening next and address all who may feel interested in his views upon the labor question. We know nothing of the speaker beyond his subject, but bespeak for him a fair reception. It is possible that since he finds favor in Virginia he may have some new way of stating a very old theme. We are informed that Reno already has a workingmen's club of fifty.

**PROTECT OUR FISH.**—The fish Commissioner, Hub Parker, is expected to pay a visit to the Truckee river in a few days. There are several cases to which he may give his attention as Commissioner. Fishways and ladders must by law be provided at all dams across a river. We believe that Mr. Parker will attend to this matter and see that the trout of the Truckee shall be protected.

**LARGE CROP.**—Tom Norcross made a mistake in unhitching his mare, and when she started up the buggy was still fastened to her. Tom was struck in the back and knocked down, removing about one acre of skin from his nose. Norcross says there is some money in the court plaster crop this year.

**TO JAPAN.**—Seven head of fine Ayshire cattle passed through Reno yesterday en route for Japan. They were purchased by the Government at a cost of \$3,500. The freight from Massachusetts to San Francisco was \$800. The seller, Mr. Warren, accompanied the animals.

**RETURNED.**—Mrs. Chas. T. Bender returned last night from an Eastern visit to her home in Elmira, New York. The lady brings with her good health and pleasant recollections of her trip.

**AT O'BURN & SHOEMAKER'S** drugstore, prescriptions at prices to suit the times—prepared at all hours of the day and night by a regular graduate of a college of Pharmacy. 2-13tf.

## Jottings.

Mrs. Bewers has gone to Truckee, but will return next Friday morning, when she will be found at the Pollard House for several days.

There was no session of the District Court to-day.

There will be a material reduction in the telegraphic rates over the Pacific Division of the Western Union Telegraphic company April 1st.

Two bars of bullion from Bodie last night. Also four bars from the Comanche mine.

Methodist social Wednesday night. Oysters.

Frank Drake was in town yesterday.

We saw some choice specimens of petrified wood, etc., which came this morning to Mr. W. R. Chamberlain from the Hayward mine at Dutch Flat.

E. J. Parkinson of the Carson Tribune slipped down to Reno last night and then stole away this morning. We presume that his object was—well we can't blame him. Ed is attractive, perhaps we might also say attracted. We hope to have a "comp."

There will be a meeting of Washoe Fire Company No. 2 this evening at their rooms.

Mr. J. Powell is building house for a harness and saddle shop one door south of the Golden Eagle hotel.

Seventeen car-loads of cattle were shipped this afternoon from this point by Alvaro Evans. These cattle are consigned to Miller & Lux. One car goes to Colfax and the remaining 16 to San Francisco. There remains about 3,000 head to ship by the same party.

Dr. Sheets has returned from Bodie. He reports intense cold and an "awful country," but says times will be lively in that new mining camp this Summer.

Rev. W. C. Gray, the Methodist pastor at this place, is now on his presiding elder rounds and will not preach at this place for four Sabbaths. Rev. G. W. Fitch, will officiate in his stead.

The Schiveley furnace is in secret operation. Perhaps to-morrow we shall have an article on the result of the two days' operations.

If we gather aught the political sentiment of the Comstock R. N. Daggett is the coming nominee of the Republican party for Governor of this State.

A very interesting discussion is promised at the Lyceum to-morrow evening, viz; that the professions and judicial offices shall be open to woman.

**ST. PATRICK'S DAY.**—St. Patrick's Day passed very quietly here in Reno yesterday. In Carson there were no particular celebrations, but in Virginia City the day did not pass unobserved. The ancient order of Hibernians and the Emmet Guards turned out in regalia and headed by a brass band attended services at the Catholic Church. Great crowds stood at the corner of C and Taylor streets to see their Irish friends pass the church. After marching down the street the band repaired to the Emmet Guard quarters and filled the air with Irish and American melodies for nearly two hours. This evening the loyal sons of old Ireland will give a grand ball at Virginia City. Long may the 17th be observed by the hardy sons of Ireland, the descendants of Emmet, Curran, Grattan and Phillips.

**C. A. Bragg & Co** are in receipt of a stock of moth carpet lining. It is serviceable, not only as deadening, but excludes vermin, prevents the uneven wear of carpets, keeps out cold air and the dampness which arises from cellars, thus adding to the healthfulness and warmth of a house and saving fuel. It can be used year after year without any additional expense whatever. The cost saved twice every season in wear of carpets. Call and examine.

**REMOVAL.**—Yankee Dodge has removed to the store formerly occupied by Misses Brown & Harney, where he will be pleased to see his friends and patrons. He will keep constantly on hand a general assortment of Yankee notions and fancy goods, and sell them cheaper than any other house in Reno. We will have an auction sale every Saturday evening. Be sure and give us a call before purchasing elsewhere. Don't forget the place, opposite the Reno Opera House, Virginia street.

**R. E. Queen** practical druggist and manufacturing chemist. All medicinal and toilet preparations made in my laboratory will be of first quality and sold at reasonable prices. Personal attention given to physicians' prescriptions.

**FOR SALE.**—A complete set of first-class bar fixtures, including tables, chairs, and a fine counter set. Apply at this office.

**TO RENT.**—A hard finished house of five rooms. Inquire of Wm. H. Moe, corner of Lake and Second streets. 2-20-1f.

## Should Fasten Their Shoes.

A Reno belle dropped her shoe in the river the other day. It floated gaily with the current until it struck a snag, which turned it athwart the stream, and backed the water so that the country was inundated for miles around. A torpedo was sent from Wadsworth, and exploded under the slipper, blowing it into a thousand fragments, and the waters have abated. Had the accident happened at any other time of the year the damage might have been incalculable; but, as it is, the ranchmen of the neighborhood are relieved of the necessity of spring irrigation. Reno girls should be careful how they cross the streams with their shoes insecurely fastened.—Eureka Sentinel.

A friend in Eureka sends us the above and after reciting how a Eureka Belle emptied the water from her over shoe and caused a spring flood down the canon and through Bateman St., goes on to say:

"Eureka is noted for its variety of smells. Some of the 'Fume sharps' can tell the particular furnace from which any particular smell comes. He sniffs his nose and says: 'That's Richmond,' again, and he says 'Eureka Consolidated,' again, 'that's K. K.' The big Ditch furnishes a variety of smells also. A 'Fume sharp' was seated on the Spring St. bridge to count them. He counted 100 distinct smells and 95 unclassified, and gave it up. One Sunday morning there was a peculiar smell, a rank smell, an awful smell, and the 'Fume sharp' was in despair. Every one noticed it. It continued. People returning to the town from abroad noticed it and remarked: 'How awful the fumes smell.' On Thursday, however, it was ascertained that a belle of Eureka had washed her feet on the Sunday morning, and then there was a full understanding of the matter.

**NEW CLERGYMAN.**—Mr. John W. Maddrill, foreman of the Journal office, and local preacher in the Methodist Church, preached at that "meeting house" yesterday morning and evening. We were not apprised that the the reverend gentleman would officiate and therefore did not attend divine service at the above Church. If he does it again we want at least an intimation before hand. In our younger days if the Lord's call had been louder we should have dealt out gospels truths ourselves. Perhaps the Lord had an eye to the welfare of a fraction of mankind, and thus it is that we drive the quill for food and raiment.

**FEAST.**—To-morrow is the first day of the Jewish feast of Purim. The day will be observed appropriately by that portion of our citizens. In Virginia City a grand ball is projected. The custom of the day is feasting, joy, and giving to the poor. The ancient scriptural mandate indicated the 14th and 15th days of the month of Adar as those which should be commemorated in this way.

## A PASTORAL.

The golden light of sunset  
Shines on the cornfields round.  
And the breeze, as it passes over,  
Makes a sweet, rippling sound.  
—[Spectator.

The bees and the saws are buzzing  
Down in the lumber mill.  
While astride of the old mare's arse,  
A huge horse-fly sits still.  
—[Poughkeepsie Telegraph.

In the shimmering of the twilight  
The skeeter doth appear.  
And eyes the end of the maiden's nose  
With a cruel wicked leer.  
—[New York Express.

In the dark and solemn midnight  
The bed-bug goes to work.  
And the sleeper wakes and scratches,  
Sweating like an angry Turk.  
—[San Francisco Chronicle.

In the melting heat of noon-day  
The grub-worms dig around.  
And the jackass rabbit grumbles,  
And sits down on the ground.

## CARD OF THANKS.

We, the undersigned, wish to tender our thanks to Mr. J. A. Bender, State Agent, and Mr. James H. Marshall, City Agent of the Home Mutual Fire Insurance Company of San Francisco, for the highly satisfactory and unprecedented manner in which the representatives of the above named Company have settled their portion of the loss which we sustained at the late fire on Frisbie's corner. We take great pleasure in recommending the Home Mutual Insurance Company to the insuring public for honest, square, and high-toned dealing. —[Carson Appeal, Jan. 26, 1878.

**INSURE** in the Home Mutual. If your property is destroyed by fire and you are fortunate enough to hold one of our policies, your money is ready and paid when you most need it. Negligitation or trouble. —[ALLEN C. BRAGG, Agent. Reno, Jan. 20, 1878-1f.

**S. F. Hoole's Hair Tonic** will prevent your hair from falling out; cleanse the scalp of dandruff, and renew its growth. It is a splendid hair dressing. Try it.

**S. F. Hoole's Mystic Balm** will prevent or cure chapped hands or face—render them soft as velvet and white as snow. Warranted to cure of money returned.

**S. F. Hoole's Moth and Flea Eridicator** will destroy the complexion, remove freckles and moth spots—is a harmless and splendid compound for the toilet.

Prescriptions accurately compounded by a scientific Pharmacist—a graduate of twenty years practice—at the lowest rates. —[HOOLES & CO'S PHARMACY, Commercial Row.

A good bony gentleman of 170 pounds yield on cremation one and a half pounds of first-class ashes.

Four sisters were recently married at the same time in Vermont. The old folks feel relieved, but the trouble begins for the girls.

An orator, declaring that fortune knocked at every man's door once, an old Irishman said: "When she knocked at mine I must have been out."

Mrs. MacKenzie, wife of the Canadian Premier, has given two gold medals to a girl's school at Ottawa as prizes for courses in domestic economy and plain sewing.

A Vermont widow of sixty, with ten children, has married a boy of sixteen. Before the ceremony her oldest son, a man of thirty-five, knocked down the prospective bridegroom.

Of sawdust 19 per cent. and of sand 14 per cent., was what was found in a sample of Russian army bread recently analyzed. The baker must have learned how to do it under Ben. Butler.

The oldest Postmaster in the United States is Nathan Wood, who has been Postmaster at Deep River, Indiana, for more than forty years, having been appointed by General Jackson's administration.

A man at Flint, Mich., has invented a "combined power" for running churns, sewing machines, and all manner of light machinery. It is operated by clock-work. He has applied for a patent.

The Waco, Texas, Examiner tells of a man with "one bullet in the brain, and one in the head." This leaves a very unpleasant doubt in the reader's mind as to where the man carries his brain.

Boston paper: The latest and wickedest on dit about the clubs is to the effect that a married lady in this city, well known in society, but name not given, has recently fallen in love with her husband.

Of the 5000 envelopes asking subscriptions to the Robert E. Lee monument, sent out some time ago to the citizens of Richmond, Virginia, only thirty-five have been returned, containing an aggregate of \$40.32.

By accident the name of Thomas B. Browning of Dundas, Canada, was left off the assessment rolls, so that he had no tax to pay. Instead of being thankful and silent he has sued the town for \$3,000 damages.

A Wisconsin county editor sent King Alfonso as a wedding present, a receipted bill for one year's subscription to his paper, with a complimentary notice to his majesty in the first number. Write him down an ass.

Mr. Geo. Francis Train is entertaining "the ladies only" of Newark, New Jersey, with some of his antics. One of his gentle auditors asked him where he was born. "It was my misfortune," replied Mr. Train, "to be born in Boston. I apologize to Boston for it." [Great laughter.] "A meaner place I never knew. It was founded by a miserable lot of pilgrims kicked out of England into Holland and then paid to keep away from Manhattan Island."
